

Design Your Own Internship

Thank you for your interest in a volunteer internship with Peace Ridge Sanctuary!

In addition to our Barn Attendant Internship, we offer you an opportunity to design your own program based on your own unique interests and skills. If your interests lie in other areas, we are happy to talk with you about what you have to offer.

Here are some of the skills we may be looking for:

- Fundraising
- Social media
- Marketing (creating promotional materials)
- Non-profit management
- Video or photography
- Carpentry
- Humane Education
- Landscaping
- Creating and maintaining a wilderness trail system

Some animal care and barn cleaning will be required of all interns, regardless of your specific focus.
